Manoa Valley Church's After-School Care Program was originated in the Fall of 1975 in response to a need in the community.

As God seeks to provide for our needs, so we seek to do the same for each child who comes to us. We provide a loving environment where children's physical, emotional, social, and spiritual needs can be met (weekly chapels are led by our pastor or staff). We believe that a child's early years are crucial to his/her development and endeavor to help each child develop a positive self-image.

The program provides care for children from Kindergarten through 6th grade. Children have ample opportunities to be themselves in their relationships with other children. They are free to select from activities according to their interests. Activities include:

Outdoor play (large spacious yard)
w/playground equipment
Free gym play
Homework area

Library corner
Quiet games
Block play
Craft activities
